PaymentVision®

Virtual Terminal Payments

Secure payments for call centers

Use your existing customer service team to assist customers in making online or in person payments. As a fully hosted cloud-based application, all it takes is an internet connection & browser to get started.

Our virtual terminal was designed to simplify payment processing, optimize call handle time, and ensure fast training so you can respond to inquiries, update and manage accounts, and accept all forms of payment – debit card, credit card, or ACH – without costly integrations.

Available 24/7 without the need for an agent

Flexibility to bring your own bank or merchant account

PCI-DSS Level 1 certified and tokenized

Link multiple accounts into one view

One-time or recurring payments

Instantly verify banking information
